

CABINET OF MINISTERS OF UKRAINE

RESOLUTION

Dated January 31, 2001 N 80

Kyiv

On the issues of domestic government bonds

{As amended according to the CM Resolutions

[N 1829 dated 29.11.2002](#)

[N 567 dated 12.07.2005](#)

[N 317 dated 15.03.2006](#)

[N 990 dated 01.08.2007](#)

[N 1011 dated 28.09.2011](#)

[N 1280 dated 12.12.2011](#)

[N 233 dated 12.03.2012](#)

[N 234 dated 21.03.2012](#) }

According to the [Budget Code of Ukraine](#), the Laws of Ukraine “[On Securities and Stock Market](#)” and “[On National Depository System and Special Features of Electronic Circulation of Securities in Ukraine](#)” the Cabinet of Ministers has resolved the following:

{Introductory clause amended according to the CM Resolutions [N 1011 dated 28.09.2011](#), [N 234 dated 21.03.2012](#)}

1. To issue domestic government bonds annually within the limiting size of the state internal debt established by law for the relevant year, namely short-term bonds with a circulation period up to one year (hereinafter - the short-term government bonds), short-term bonds denominated in foreign currency, with a circulation period up to one year (hereinafter - the short-term government bonds denominated in foreign currency), medium-term bonds with a circulation period up to five years (hereinafter - the medium-term government bonds), short-term or medium-term bonds denominated in foreign currency with a circulation period up to one year and between one and five years respectively (hereinafter - short-term or medium-term government bonds denominated in foreign currency), medium-term bonds with an early repayment denominated in foreign currency, with a circulation period from one to five years (medium-term government bonds with an early repayment denominated in foreign currency), long-term bonds with an early repayment with a circulation period of more than five years (hereinafter - the long-term government bonds with an early repayment), long-term amortization bonds with a circulation period of more than five years (hereinafter - the long-term government amortization bonds), long-term bonds with a circulation period of more than five years (hereinafter - the long-term government bonds), medium-term bonds with an indexed value with a circulation period from one to five years (hereinafter - the medium-term government bonds with an indexed value), long-term bonds with an indexed value with a circulation period of more than five years (hereinafter - the long-term government bonds with an indexed value).

{Paragraph 1 amended according to the CM Resolutions [N 1829 dated 29.11.2002](#), [N 567 dated 12.07.2005](#), [N 317 dated 15.03.2006](#), [N 1011 dated 28.09.2011](#), [N 1280 dated 12.12.2011](#), [N 234 dated 21.03.2012](#)}

2. To approve [the basic terms and conditions of issue and procedure for placement of short-term and medium-term government bonds, basic terms and conditions of issue and procedure for placement of short-term government bonds, designated in foreign currency, the basic terms and conditions of issue and procedure for placement of short-term and medium-term government](#)

bonds, designated in foreign currency, basic terms and conditions of issue and procedure for placement of medium-term government bonds with an early repayment, designated in foreign currency, basic terms and conditions of issue and procedure for placement of long-term government bonds with an early repayment, long-term amortization government bonds, basic terms and conditions of issue and procedure for placement of long-term government bonds, basic terms and conditions of issue and procedure for placement of medium-term and long-term government bonds with an index value (attached).

{ Paragraph 3 amended according to the CM Resolutions [N 1829 dated 29.11.2002](#), [N 567 dated 12.07.2005](#), [N 317 dated 15.03.2006](#), [N 1011 dated 28.09.2011](#), [N 1280 dated 12.12.2011](#), [N 234 dated 21.03.2012](#) }

3. To the Ministry of Finance:

To act as an issuer and to place short-term government bonds, medium-term government bonds, short-term government bonds denominated in foreign currency, medium-term government bonds denominated in foreign currency, medium-term government bonds with an early repayment denominated in foreign currency, medium-term and long-term government bonds with an indexed value, long-term government bonds, long-term government bonds with an early repayment and long-term amortization government bonds in accordance with the basic conditions and procedures approved by this Resolution;

{ Sub-paragraph 2 of paragraph 3 amended according to the CM Resolutions [N 1011 dated 28.09.2011](#), [N 1280 dated 12.12.2011](#), and [N 234 dated 21.03.2012](#) }

To determine the time of execution and volumes of issue of short-term government bonds, medium-term government bonds, short-term government bonds denominated in foreign currency, medium-term government bonds denominated in foreign currency, medium-term government bonds with an early repayment denominated in foreign currency, medium-term and long-term government bonds with an indexed value, long-term government bonds, long-term government bonds with an early repayment and long-term amortization government bonds;

{ Sub-paragraph 3 of paragraph 3 amended according to the CM Resolutions [N 1011 dated 28.09.2011](#), [N 1280 dated 12.12.2011](#), and [N 234 dated 21.03.2012](#) }

To determine the terms of the turnover and interest rate (selling price) of short-term government bonds, medium-term government bonds, short-term government bonds denominated in foreign currency, medium-term government bonds denominated in foreign currency, medium-term government bonds with an early repayment denominated in foreign currency, medium-term and long-term government bonds with an indexed value, long-term government bonds, long-term government bonds with an indexed value and long-term amortization government bonds;

{ Sub-paragraph 4 of paragraph 3 amended according to the CM Resolutions [N 1011 dated 28.09.2011](#), [N 1280 dated 12.12.2011](#), [N 234 dated 21.03.2012](#) }

To annually provide the funds in the draft Law of Ukraine on State Budget of Ukraine for the relevant year, necessary for maintenance and repayment of short-term government bonds, medium-term government bonds, short-term government bonds denominated in foreign currency, medium-term government bonds denominated in foreign currency, medium-term government bonds with an early repayment denominated in foreign currency, medium-term and long-term government bonds with an indexed value, long-term government bonds, long-term government bonds with an early repayment and long-term amortization government bonds;

{Sub-paragraph 5 of paragraph 3 amended according to the CM Resolutions [N 1011 dated 28.09.2011](#), [N 1280 dated 12.12.2011](#), and [N 234 dated 21.03.2012](#)}

To act as a guarantee of the timely repayment and payment of interest on bonds issued pursuant to this resolution on behalf of the Cabinet of Ministers of Ukraine;

To solve issues of release, placement and repayment of short-term government bonds, medium-term government bonds, short-term government bonds denominated in foreign currency medium-term government bonds denominated in foreign currency, medium-term government bonds with an early repayment denominated in foreign currency, medium-term and long-term government bonds with an indexed value, long-term government bonds, long-term government bonds with an early repayment and long-term amortization government by agreement with the National Bank according to the basic conditions and procedures;

{Sub-paragraph 7 of paragraph 3 amended according to the CM Resolutions [N 1011 dated 28.09.2011](#), [N 1280 dated 12.12.2011](#), and [N 234 dated 21.03.2012](#)}

To develop and approve the procedure for repayment of long-term government bonds with an early repayment and medium-term government bonds with an early repayment denominated in foreign currency;

{Paragraph 3 has been amended with sub-paragraph according to the CM Resolution [N 1829 dated 29.11.2002](#); amended according to the CM Resolution [N 234 dated 21.03.2012](#)}

To develop and approve the procedure for early repayment of long-term government bonds;

{Paragraph 3 has been amended with sub-paragraph according to the CM Resolution [N 317 dated 15.03.2006](#)}

{Paragraph 3 amended according to the CM Resolution [N 1829 dated 29.11.2002](#), [N 567 dated 12.07.2005](#), and [N 317 dated 15.03.2006](#)}

4. To take note of the fact that the general agent for handling the issue and repayment of short-term government bonds, medium-term government bonds, short-term government bonds denominated in foreign currency, short-term or medium-term government bonds denominated in foreign currency, medium-term government bonds with an early repayment denominated in foreign currency, medium-term and long-term government bonds with an indexed value, long-term government bonds, long-term government bonds with an early repayment and long-term amortization government bonds shall be the National Bank.

{ Paragraph 4 amended according to the CM Resolution [N 1829 dated 29.11.2002](#), [N 567 dated 12.07.2005](#), [N 317 dated 15.03.2006](#), [N 1011 dated 28.09.2011](#), [N 234 dated 21.03.2012](#)}

Prime-Minister of Ukraine V. YUSHCHENKO
Ind. 34

APPROVED

by the Resolution of the Cabinet of Ministers
of Ukraine

Dated January 31, 2001 N 80

BASIC TERMS AND CONDITIONS

of the issue and procedure for placement of short-term government bonds

1. The nominal value of one short-term government bond shall amount to 1,000 UAH.
2. The interest income rate on short-term government bonds shall be set in the amount of 0 (zero) percent.
3. Short-term government bonds shall be issued in the form of records on the relevant electronic accounts in the depository of the National Bank. Each issue of short-term government bonds shall be executed as a global certificate. The global certificate shall be stored in the depository of the National Bank.
4. Short-term government bonds shall be sold to individuals and legal entities on a voluntary basis at the price lower than their nominal value. The revenue from a short-term government bond shall be the difference between the nominal value, compensated to the owner of the short-term government bond during its repayment, and the price of its acquisition.
5. Transactions, related to the placement of short-term government bonds, shall be made by the National Bank through brokers and/or dealers, who are custodians and clients of the depository of the National Bank (hereinafter - the clients of the depository of the National Bank), in accordance with the procedure determined by the National Bank by agreement with the Ministry of Finance.
6. A short-term government bond in the form of an electronic record shall be deemed acquired upon the registration of its purchaser, which is made in accordance with the procedure determined by the National Bank.
7. The right of ownership of short-term government bonds shall be certified:

Clients of the depository of the National Bank – by the Certificates of the state of their accounts in securities issued by the depository of the National Bank;

Clients' depositors of the depository of the National Bank – by the extracts of their securities accounts certified by the signature of the official and stamped by the client of the depository of the National Bank.

8. Repayment of short-term government bonds shall be made in the form of cash:

To the clients of the depository of the National Bank – by the National Bank within the funds transferred from the State Treasury under the register, maintained by the depository of the National Bank;

To legal entities and individuals who are depositors of the clients of the depository of the National Bank – by the clients of the depository of the National Bank within the funds, transferred from the National Bank, under the registers of the owners' accounts to the clients of the depository of the National Bank. Payments to individuals, who are depositors of the clients of the depository of the National Bank, at their request may be made in a non-cash form.

APPROVED

by the Resolution of the Cabinet of Ministers
of Ukraine

Dated January 31, 2001 N 80

BASIC TERMS AND CONDITIONS

of the issue and procedure for placement of medium-term government bonds

1. The nominal value of one medium-term government bond shall amount to 1,000 UAH.
2. Medium-term government bonds shall be sold to individuals and legal entities on a voluntary basis.
3. Medium-term government bonds shall have coupons. The coupon period shall be three or six months (13 or 26 weeks).

The duration of the coupon period shall be determined by the issuer during placement of such bonds.

{Paragraph 3 amended according to the CM Resolution [N 990 dated 01.08.2007](#)}

4. The annual interest income rate on medium-term government bonds shall be defined as the weighted average income on competitive bids submitted for the auction from the primary placement of the bonds and shall be satisfied by the decision of the Ministry of Finance, taking into account the maximum level of income from bonds set thereof, competitive bids in excess of which shall not be satisfied.

{Paragraph 3 amended according to the CM Resolution [N 234 dated 21.03.2012](#)}

5. The amount of coupon payment on one medium-term government shall be determined according to the following formula:

$$CД = H_{OM} \times (\Pi_p / 100) / k,$$

Where $CД$ - size of a coupon payment on a medium-term government bond;

H_{OM} - nominal value of one medium-term government bond;

Π_p - annual percentage rate of return on medium-term government bonds, which is determined in accordance with paragraph 4;

k - number of coupon periods per year according to the decision of the issuer.

{Paragraph 5 has been amended with a sub-paragraph according to the CM Resolution [N 990 dated 01.08.2007](#)}

{Paragraph 5 amended according to the CM Resolution [N 990 dated 01.08.2007](#)}

6. During the primary placement of medium-term government bonds their offering price depending on the level of income proposed by the buyer shall be calculated separately for each buyer for each application that entered the auction from the primary placement of bonds and was satisfied by the decision of the Ministry of Finance according to the following formula:

$$\text{ЦР} = \frac{\text{Ном}}{(1 + (\text{ПД} / 100) / k)^{\frac{\text{ДП}}{\text{КДП}}}} + \sum_{i=1}^{\text{КД}} \frac{\text{СД}}{(1 + (\text{ПД} / 100) / k)^{\frac{\text{ДД}_i}{\text{КДП}}}}$$

Where ЦР - selling price of medium-term government bonds;

Ном - nominal value of one medium-term government bond;

КД - number of payments from payment of income to be made on medium-term government bonds;

СД - size of a coupon payment on a medium-term government bond, which shall be determined according to paragraph 5;

ПД - percentage of the annual income on medium-term government bonds specified by the buyer in the application for primary placement auctions of medium-term government bonds;

КДП - number of days in the coupon period;

ДП - number of days from the date of selling medium-term government bonds till the date of their repayment;

ДД_i - number of days from the date of selling medium-term government bonds till the date of making the i-coupon payment;

k - number of coupon periods per year by the decision of the issuer.

{Paragraph 6 has been amended with a sub-paragraph according to the CM Resolution [N 990 dated 01.08.2007](#)}

The calculation shall be made on the basis that there are 360 days a year and 30 days a month.

{Paragraph 6 amended according to the CM Resolution [N 990 dated 01.08.2007](#)}

7. Medium-term government bonds shall be issued in the form of records on the relevant electronic accounts in the depository of the National Bank. Each issue of short-term government bonds shall be executed as a global certificate. The global certificate shall be stored in the depository of the National Bank.

8. Transactions, related to the placement of medium-term government bonds, shall be made by the National Bank through brokers and/or dealers, who are custodians and clients of the depository of the National Bank (hereinafter - the clients of the depository of the National Bank), in accordance with the procedure determined by the National Bank by agreement with the Ministry of Finance.

9. A medium-term government bond in the form of an electronic record shall be deemed acquired upon the registration of its purchaser, which is made in accordance with the procedure determined by the National Bank.

10. The right of ownership of short-term government bonds shall be certified:

Clients of the depository of the National Bank – by the Certificates of the state of their accounts in securities issued by the depository of the National Bank;

Clients' depositors of the depository of the National Bank – by the extracts of their securities accounts certified by the signature of the official and stamped by the client of the depository of the National Bank.

11. Payments and re-payment of interest income on short-term government bonds shall be made in a non-cash form:

To the clients of the depository of the National Bank – by the National Bank within the funds transferred from the State Treasury under the register, maintained by the depository of the National Bank;

To legal entities and individuals who are depositors of the clients of the depository of the National Bank – by the clients of the depository of the National Bank within the funds, transferred from the National Bank, under the registers of the owners' accounts to the clients of the depository of the National Bank. Payments to individuals, who are depositors of the clients of the depository of the National Bank, at their request may be made in cash.

APPROVED

By the Resolution of the Cabinet of Ministers
of Ukraine

Dated November 29, 2002 N 1829

{ The basic terms and conditions of release and the procedure for placement of long-term government bonds with a variable income rate have become null and void under the CM Resolution [N 567 dated 12.07.2005](#) }

APPROVED

By the Resolution of the Cabinet of Ministers
of Ukraine

Dated November 29, 2002 N 1829

BASIC TERMS AND CONDITIONS

of the issue and procedure for placement of long-term government bonds with an early repayment

1. The nominal value of one long-term government bond with an early repayment shall amount to 1,000 UAH.
2. Long-term government bonds with an early repayment shall be sold to individuals and legal entities on a voluntary basis.
3. Long-term government bonds with an early repayment shall have coupons. The coupon period shall be three months.

4. The annual interest income rate on long-term government bonds with an early repayment shall be defined as the weighted average income on competitive bids submitted for the auction from the primary placement of the bonds and shall be satisfied by the decision of the Ministry of Finance, taking into account the maximum level of income from bonds set thereof, competitive bids in excess of which shall not be satisfied.

{Paragraph 4 amended according to the CM Resolution [N 234 dated 21.03.2012](#)}

5. The amount of i-coupon payment on one long-term government bond with an early repayment shall be determined according to the following formula:

$$CД = Ном \times (Пр / 100) / 4,$$

Where $CД$ - size of a coupon payment on a long-term government bond with an early repayment;

$Ном$ - nominal value of one long-term government bond with an early repayment;

$Пр$ - annual percentage rate of return on long-term government bonds, which shall be determined in accordance with paragraph 4 of the Basic Terms and Conditions;

6. During the primary placement of long-term government bonds with an early repayment their offering price depending on the level of income proposed by the buyer shall be calculated separately for each buyer for each application that entered the auction from the primary placement of bonds and was satisfied by the decision of the Ministry of Finance according to the following formula:

$$ЦП = \frac{Ном}{(1 + (ПД / 100) / 4)^{\frac{ДП}{КДП}}} + \sum_{i=1}^{КД} \frac{CД}{(1 + (ПД / 100) / 4)^{\frac{ДП_i}{КДП}}},$$

Where $ЦП$ - selling price of long-term government bonds with an early repayment;

$Ном$ - nominal value of one long-term government bond with an early repayment;

$КД$ - number of payments from payment of income to be made on long-term government bonds with an early repayment;

$CД$ - size of a coupon payment on a medium-term government bond with an early repayment, which shall be determined according to paragraph 5 of the Basic Terms and Conditions;

$ПД$ - percentage of the annual income on long-term government bonds with an early repayment, specified by the buyer in the application for primary placement auctions of long-term government bonds;

$КДП$ - number of days in the coupon period;

$ДП$ - number of days from the date of selling long-term government bonds with an early repayment till the date of their repayment;

Δ_i - number of days from the date of selling long-term government bonds till the date of making the i -coupon payment;

The calculation shall be made on the basis of the actual number of days in the coupon period.

{Paragraph 6 amended according to the CM Resolution [N 990 dated 01.08.2007](#)}

7. Long-term government bonds with an early repayment may be early submitted for repayment by the owners and certainly repaid by the issuer after making five coupon payments on long-term government bonds with an early repayment. Early repayment shall be made on the date of the coupon payment on long-term government bonds with an early repayment. The procedure for the early repayment shall be determined by the Ministry of Finance.

8. Long-term government bonds with an early repayment shall be issued in the form of records on the electronic accounts in the depository of the National Bank. Each issue of long-term government bonds with an early repayment shall be executed as a global certificate. The global certificate shall be stored in the depository of the National Bank.

9. Transactions, related to the placement of long-term government bonds, shall be made by the National Bank through brokers and/or dealers, who are custodians and clients of the depository of the National Bank (hereinafter - the clients of the depository of the National Bank), in accordance with the procedure determined by the National Bank by agreement with the Ministry of Finance.

10. A long-term government bond with an early repayment in the form of an electronic record shall be deemed acquired upon the registration of its purchaser, which is made in accordance with the procedure determined by the National Bank.

11. The right of ownership of long-term government bonds with an early repayment shall be certified:

Clients of the depository of the National Bank – by the Certificates of the state of their accounts in securities issued by the depository of the National Bank;

Clients' depositors of the depository of the National Bank – by the extracts of their securities accounts certified by the signature of the official and stamped by the client of the depository of the National Bank.

12. Payments and re-payment of interest income on long-term government bonds with an early repayment shall be made in a non-cash form:

To the clients of the depository of the National Bank – by the National Bank within the funds transferred from the State Treasury under the register, maintained by the depository of the National Bank;

To legal entities and individuals who are depositors of the clients of the depository of the National Bank – by the clients of the depository of the National Bank within the funds, transferred from the National Bank, under the registers of the owners' accounts to the clients of the depository of the National Bank. Payments to individuals, who are depositors of the clients of the depository of the National Bank, at their request may be made in cash.

{The Resolution has been amended with the Basic Terms and Conditions according to the CM Resolution [N 1829 dated 29.11.2002](#)}

APPROVED

By the Resolution of the Cabinet of Ministers
of Ukraine

Dated November 29, 2002 N 1829

BASIC TERMS AND CONDITIONS

of the issue and procedure for placement of long-term amortization government bonds

1. The nominal value of one long-term amortization government bond shall amount to 1,000 UAH.
2. Long-term amortization government bonds shall be sold to individuals and legal entities on a voluntary basis.
3. Long-term amortization government bonds shall have coupons. The coupon period shall be three months.
4. The annual interest income rate on long-term amortization government bonds shall be defined as the weighted average income on competitive bids submitted for the auction from the primary placement of the bonds and shall be satisfied by the decision of the Ministry of Finance, taking into account the maximum level of income from bonds set thereof, competitive bids in excess of which shall not be satisfied.

{Paragraph 4 amended according to the CM Resolution [N 234 dated 21.03.2012](#)}

5. The amount of i-coupon payment on one long-term amortization government bond shall be determined according to the following formula:

$$C_{Di} = H_{omi} \times (P_p / 100) / 4,$$

Where C_{Di} - size of a i-coupon payment on a long-term amortization government bond;

H_{omi} - residual nominal value of one long-term amortization government bond as of the date of making an i- coupon payment;

P_p - annual percentage rate of return on long-term amortization government bonds, which shall be determined in accordance with paragraph 4 of the Basic Terms and Conditions.

6. During the primary placement of long-term amortization government bonds their offering price depending on the level of income proposed by the buyer shall be calculated separately for each buyer for each application that entered the auction from the primary placement of bonds and was satisfied by the decision of the Ministry of Finance according to the following formula:

$$CP = \sum_{i=1}^{KД} \frac{H_{omi}(KД - 6)}{(1 + (PД / 100) / 4)^{\frac{ДД_i}{KЭП}}} + \sum_{i=1}^{KД} \frac{C_{Di}}{(1 + (PД / 100) / 4)^{\frac{ДД_i}{KЭП}}},$$

Where QP - selling price of long-term amortization government bonds;

Hom - nominal value of one long-term amortization government bond;

KD - number of payments from payment of income to be made on long-term amortization government bonds;

CD_i - size of an i - coupon payment on a long-term amortization government bond, which shall be determined according to paragraph 5 of the Basic Terms and Conditions;

PD - percentage of the annual income on long-term amortization government bonds, specified by the buyer in the application for primary placement auctions of long-term amortization government bonds;

KDP - number of days in the coupon period;

DP_i - number of days from the date of selling long-term amortization government bonds till the date of repayment of a part of their nominal value to be made on the day of the i -coupon payment;

DD_i - number of days from the date of selling long-term amortization government bonds till the date of making the i -coupon payment;

The calculation shall be made on the basis of the actual number of days in the coupon period.

{Paragraph 6 amended according to the CM Resolution [N 990 dated 01.08.2007](#)}

7. Repayment of the nominal value of the long-term amortization government bonds shall be made after eighteen months of their turnover in equal parts at the moment of making coupon payments.

8. Long-term amortization government bonds shall be issued in the form of records on the electronic accounts in the depository of the National Bank. Each issue of long-term amortization government bonds shall be executed as a global certificate. The global certificate shall be stored in the depository of the National Bank.

9. Transactions, related to the placement of long-term amortization government bonds, shall be made by the National Bank through brokers and/or dealers, who are custodians and clients of the depository of the National Bank (hereinafter - the clients of the depository of the National Bank), in accordance with the procedure determined by the National Bank by agreement with the Ministry of Finance.

10. A long-term amortization government bond in the form of an electronic record shall be deemed acquired upon the registration of its purchaser, which is made in accordance with the procedure determined by the National Bank.

11. The right of ownership of long-term amortization government bonds shall be certified:

Clients of the depository of the National Bank – by the Certificates of the state of their accounts in securities issued by the depository of the National Bank;

Clients' depositors of the depository of the National Bank – by the extracts of their securities accounts certified by the signature of the official and stamped by the client of the depository of the National Bank.

12. Payments and re-payment of interest income on long-term amortization government bonds shall be made in a non-cash form:

To the clients of the depository of the National Bank – by the National Bank within the funds transferred from the State Treasury under the register, maintained by the depository of the National Bank;

To legal entities and individuals who are depositors of the clients of the depository of the National Bank – by the clients of the depository of the National Bank within the funds, transferred from the National Bank, under the registers of the owners' accounts to the clients of the depository of the National Bank. Payments to individuals, who are depositors of the clients of the depository of the National Bank, at their request may be made in cash.

The calculation shall be made on the basis of the actual number of days in the coupon period.

{Paragraph 6 amended according to the CM Resolution [N 990 dated 01.08.2007](#)}

7. When placing long-term government bonds the issuer may determine the date on which it is possible to make early repayment. The owners of such an issue of the bonds may early present on that date the bonds that shall be certainly repaid by the issuer.

Early repayment of long-term government bonds shall be made solely on the date, specified by the issuer during the initial placement of long-term government bonds. The date of prepayment can be determined only one of the dates on which coupon payments on long-term government bonds are made. Early repayment shall be made at the same time with making a coupon payment on long-term government bonds.

The procedure for early repayment shall be determined by the Ministry of Finance.

8. Long-term government bonds shall be issued in the form of records on the electronic accounts in the depository of the National Bank. Each issue of long-term government bonds shall be executed as a global certificate. The global certificate shall be stored in the depository of the National Bank.

9. Transactions, related to the placement of long-term government bonds, shall be made by the National Bank through brokers and/or dealers, who are custodians and clients of the depository of the National Bank (hereinafter - the clients of the depository of the National Bank), in accordance with the procedure determined by the National Bank by agreement with the Ministry of Finance.

10. A long-term government bond in the form of an electronic record shall be deemed acquired upon the registration of its purchaser, which is made in accordance with the procedure determined by the National Bank.

11. The right of ownership of long-term amortization government bonds shall be certified:

Clients of the depository of the National Bank – by the Certificates of the state of their accounts in securities issued by the depository of the National Bank;

Clients' depositors of the depository of the National Bank – by the extracts of their securities accounts certified by the signature of the official and stamped by the client of the depository of the National Bank.

12. Payments and re-payment of interest income on long-term government bonds shall be made in a non-cash form:

To the clients of the depository of the National Bank – by the National Bank within the funds transferred from the State Treasury under the register, maintained by the depository of the National Bank;

To legal entities and individuals who are depositors of the clients of the depository of the National Bank – by the clients of the depository of the National Bank within the funds, transferred from the National Bank, under the registers of the owners' accounts to the clients of the depository of the National Bank. Payments to individuals, who are depositors of the clients of the depository of the National Bank, at their request may be made in cash.

{The Resolution has been amended with the Basic Terms and Conditions according to the CM Resolution [N 317 dated 15.03.2006](#)}

APPROVED

By the Resolution of the Cabinet of Ministers
of Ukraine

Dated September 28, 2011 N 1011

BASIC TERMS AND CONDITIONS

of the issue and procedure for placement of medium-term and long-term government bonds with an indexed value

1. The nominal value of one medium-term or long-term government bond shall amount to 1,000 UAH.
2. Repayment of a medium-term or long-term government bond with an indexed value shall be made according to the indexed value to be determined according to paragraph 15 of the present Basic Terms and Conditions, but not lower than its nominal value.
3. Indexation of a medium-term or long-term government bond with an indexed value shall be made on the date of its repayment according to the changes in the weighted average UAH exchange rate against US Dollar (Estimated at 100 US Dollars, rounded to two decimal places) in the interbank market for the calendar month preceding the month in which the primary placement and repayment of bonds is made. The aforementioned rate shall be published by the National Bank on its official Internet representative office.
4. The volume of production of medium-term or long-term government bonds with an indexed value shall be agreed by the Ministry of Finance with the National Bank in each case of their primary placement.
5. Medium-term or long-term government bonds with an indexed value shall be sold to individuals and legal entities on a voluntary basis.
6. Medium-term or long-term government bonds with an indexed value shall have coupons. The coupon period shall be six months.
7. The annual interest income rate on medium-term or long-term government bonds with an indexed value shall be defined as the weighted average income on competitive bids submitted for the auction from the primary placement of the bonds and shall be satisfied by the decision of the Ministry of Finance, taking into account the maximum level of income from bonds set thereof, competitive bids in excess of which shall not be satisfied.

{Paragraph 7 amended according to the CM Resolution [N 234 dated 21.03.2012](#)}

8. The amount of coupon payment on one medium-term or long-term government bond with an indexed value shall be determined according to the following formula:

$$CД = H_{OM} \times (\Pi_p / 100) / 2,$$

Where CД - size of a coupon payment on a medium-term or long-term government bond with an indexed value;

H_{OM} - nominal value of one medium-term or long-term government bond with an indexed value;

Пр - annual percentage rate of return on medium-term or long-term government bond with an indexed value, which is determined in accordance with paragraph 7 of the present Basic Terms and Conditions.

9. During the primary placement of medium-term or long-term government bond with an indexed value their offering price depending on the level of income proposed by the buyer shall be calculated separately for each buyer for each application that entered the auction from the primary placement of bonds and was satisfied by the decision of the Ministry of Finance according to the following formula:

$$ЦП = \frac{Ном}{(1 + (ПД/100)/2)^{\frac{ДП}{КДП}}} + \sum_{i=1}^{КД} \frac{СД}{(1 + (ПД/100)/2)^{\frac{ДД_i}{КДП}}}$$

Where ЦП - selling price of medium-term or long-term government bond with an indexed value;

Ном - nominal value of one medium-term or long-term government bond with an indexed value;

КД - number of payments from payment of income to be made on medium-term or long-term government bond with an indexed value;

СД - size of a coupon payment on a medium-term or long-term government bond with an indexed value, which shall be determined according to paragraph 8 of the present Basic Terms and Conditions;

ПД - percentage of the annual income on medium-term or long-term government bonds with an indexed value, specified by the buyer in the application for primary placement auctions of medium-term and long-term government bonds with an indexed value;

КДП - number of days in the coupon period;

ДП - number of days from the date of selling medium-term or long-term government bonds with an indexed value till the date of their repayment;

ДД_i - number of days from the date of selling medium-term or long-term government bonds with an indexed value till the date of making the i-coupon payment;

The calculation shall be made on the basis of the actual number of days in the coupon period.

10. The Ministry of Finance may determine at any time the date on which it is possible to make long-term repayment of medium-term and long-term government obligations with an indexed value. Bond holders may early present the bonds on the day specified by the issuer, which are certainly to be repaid by the issuer.

Early repayment of medium-term or long-term government bonds with an indexed value shall be made exclusively on the day, determined by the Ministry of Finance. The date of early repayment may be determined only one of the dates, on which coupon payments are made on medium-term or long-term government bonds with an indexed value. Early repayment shall be made at the same time with a coupon payment on medium-term or long-term government bonds.

The procedure for early repayment shall be determined by the Ministry of Finance.

11. Medium-term or long-term government bonds with an indexed value shall be issued in the form of records on the electronic accounts in the depository of the National Bank. Each issue of medium-term or long-term government bonds shall be executed as a global certificate. The global certificate shall be stored in the depository of the National Bank.

12. Transactions, related to the placement of medium-term or long-term government bonds with an indexed value, shall be made by the National Bank through brokers and/or dealers, who are custodians and clients of the depository of the National Bank (hereinafter - the clients of the depository of the National Bank), in accordance with the procedure determined by the National Bank by agreement with the Ministry of Finance.

13. A medium-term or long-term government bond with an indexed value in the form of an electronic record shall be deemed acquired upon the registration of its purchaser, which is made in accordance with the procedure determined by the National Bank.

14. The right of ownership of medium-term or long-term government bonds with an indexed value shall be certified:

Clients of the depository of the National Bank – by the Certificates of the state of their accounts in securities issued by the depository of the National Bank;

Clients' depositors of the depository of the National Bank – by the extracts of their securities accounts certified by the signature of the official and stamped by the client of the depository of the National Bank.

15. The amount to be repaid on a medium-term or long-term government bond with an indexed value shall be determined according to the following formula:

$$C\Pi = \max \left(H_{\text{nom}}, H_{\text{nom}} \times \frac{CKMP_1}{CKMP_0} \right)$$

Where CΠ – amount of repayment of one medium-term or long-term government bond with an indexed value;

H_{nom} - nominal value of one medium-term or long-term government bond with an indexed value;

CKMP₀ - Weighted average UAH exchange rate against US Dollar (Estimated at 100 US Dollars, rounded to two decimal places) in the interbank market for the calendar month preceding the month in which the primary placement of medium-term or long-term government bonds with an indexed value is made;

CKMP₁ - Weighted average UAH exchange rate against US Dollar (Estimated at 100 US Dollars, rounded to two decimal places) in the interbank market for the calendar month preceding the month in which the repayment of medium-term or long-term government bonds with an indexed value is made. The aforementioned rate shall be published by the National Bank on its official Internet representative office.

16. Payments and re-payment of interest income on medium-term or long-term government bonds with an indexed value shall be made in a non-cash form:

To the clients of the depository of the National Bank – by the National Bank within the funds transferred from the State Treasury under the register, maintained by the depository of the National Bank;

To legal entities and individuals who are depositors of the clients of the depository of the National Bank – by the clients of the depository of the National Bank within the funds, transferred from the National Bank, under the registers of the owners' accounts to the clients of the depository of the National Bank. Payments to individuals, who are depositors of the clients of the depository of the National Bank, at their request may be made in cash.
